UNLIMITED USES

With the flexibility and the lightness of EXZEN X-Tension Screen, it could be brought around easily and used almost anywhere.

At Home

You can use it as your TV or as an entertainment to watch movies or play games with your family and friends.

For Work

Need a projector screen but not in every room? X-Tension solves this easily and even allows you to bring it to other offices.

Promotional Board

With a simple screen and a pico projector, you can display all the promotions without spending on the printings and mountings.

Outdoors

Staying outdoors till night with your friends? A movie under the night sky is a great way to spend time without any awkwardness.

HOW TO SET UP

Slide X-Cube into Wall-Fixing Bracket

Insert the 4 poles into grooves according to the screen size

Hook the corners of the screen to the 4 hooks accordingly

X-Tension Screen can also be fixed on a tripod, or simply to stick on any metal surface with its magnet.
